## The 25<sup>th</sup> Shanghai International Lubricants and Technology Exhibition (INTER LUBRIC CHINA) Shanghai International Metalworking Fluids and Surface Cleaning Technology Exhibition (MWF & SC)

"INTER LUBRIC CHINA" and "MWF & SC" are highly authoritative, large-scale, and internationally recognized professional trade shows in China's lubricants industry.

For 24 years, Inter Lubric China and MWF & SC have been at the forefront of industry development, with a comprehensive presence across the supply chain. Today, these exhibitions have evolved into premier platforms for trade and networking, covering the entire lubricants industry value chain—including automotive lubricants, industrial lubricants, metalworking fluids, anti-corrosion and rust-proofing materials, industrial cleaning and surface treatment, raw materials, filling and blending equipment, as well as testing and analysis instruments.

**24** years of exhibition legacy in the lubricants and metalworking fluids industries

**3,600+** exhibitors served, representing leading domestic and international brands

**230,000+** professional visitors and purchasers drawn across all events

**180+** industry conferences and events hosted, driving knowledge exchange

**50,000+** daily active users in our exclusive industry community

### Visitors Profiles

#### Lubricant End-Users

**Industrial Manufacturing:** bearings, gears, compressors, metalworking plants (machining, stamping, forging), etc.

**Energy & Power:** wind, thermal, hydro, nuclear, solar power and others

**Transportation:** aviation, marine, railway operations, logistics fleets, etc.

**Machinery:** Construction equipment (e.g. excavators, cranes), agricultural machinery, etc.

**Electronics and Electrical Appliances:** transformers, cables, semiconductor chips, electrical equipment, etc.

#### Metalworking & Surface Treatment Industries

**Metalworking Facilities:** CNC machining centers, molds & dies, heat treatment, die-casting, etc.

**Anti-Corrosion Applications:** Steel structures, shipbuilding, military equipment, warehousing & logistics, etc.

**Surface Cleaning Sectors:** Electroplating, spray coating, semiconductor and other industrial cleanings.

#### Lubricant Raw Materials and Supply Chain

**Lubricant and Grease Manufacturers:** providers of OEM and ODM services for lubricating oils, greases, specialty fats, and related products.

**Base Oil Suppliers:** including conventional mineral oils, synthetic technology oils, specialty synthetic oils, and bio-based oils.

**Additive Companies:** production and sales of anti-wear agents, detergents, dispersants, antioxidants, and other functional additives.

#### Lubrication Systems, Production Equipment & Testing Solutions

**Lubrication Systems:** centralized lubrication systems, lubrication engineering services, etc.

**Environmental Solutions:** used oil recycling equipment, oil filtration systems, environmental compliance technology providers, etc.

**Production Equipment:** lubricant blending systems, filling lines, filtration equipment, packaging machinery, etc.

**Testing & Analysis:** precision testing instruments, professional inspection services, etc.

#### Automotive Aftermarket & Maintenance Industries

**Vehicle Maintenance & Repair:** 4S dealerships, auto repair chains, quick-service centers, car care specialists, etc.

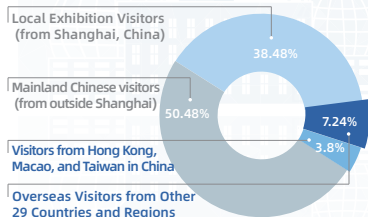

**Automotive Component Suppliers:** engine manufacturers, braking system producers, cooling system suppliers, etc.

#### Trade & Distribution Channels

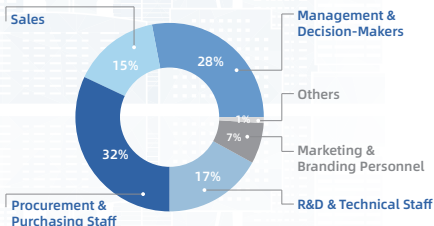

**Lubricant Distributors:** brand authorized agents, regional wholesalers, cross-border e-commerce platforms (automotive/industrial oils...), etc.

**Import/Export Traders:** international lubricant procurement companies, specialty lubricants trading firms, etc.

#### Visitors' Area Sources

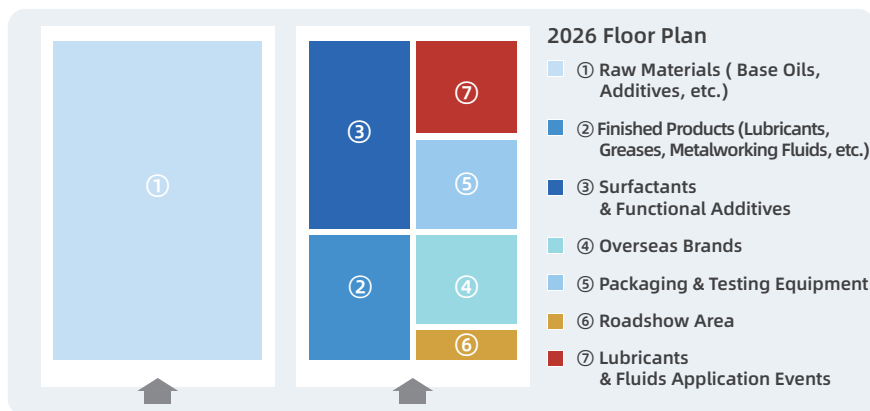

#### Visitors by Business Function

# 2026 Show Highlights:

## Reimagined Layout for Targeted Buyer-Seller Matchmaking

**Expanded Scale,  
Expected Opportunity**

**Smart Planning,  
Strategic Connecting**

**Global Innovations,  
One Destination**

**Designed for Discovery,  
Defined for Deals**

### Exhibition Scope

#### Finished Lubricants & Fluids

**Industrial Lubricants:** hydraulic oils, gear oils, compressor oils, vacuum pump oils, heat transfer oils, equipment greases, etc.

**Automotive Lubricants & Maintenance Chemicals:** engine oils, antifreeze/coolants, brake fluids, automotive greases and other auto maintenance chemicals, etc.

**Metalworking Oil & Fluids:** cutting fluids, quenching oils, die-cast oils, release oils, rust preventive oils, etc.

#### Raw Materials

**Base Oils:** mineral, synthetic, biodegradable, etc.

**Additives:** anti-wear agents, detergents & dispersants, antioxidants, viscosity index improvers, defoamers, etc.

**Auxiliary Materials:** Thickeners and other processing aids

#### Surfactants & Functional Additives

**Surfactants & Cleaners:** surface active agents, detergents, cleaning systems and equipment, etc.

**Polymer-Based Additives:** polyether compounds, silicone-based additives, etc.

**Preservatives:** biocides, mildew & corrosion inhibitors, etc.

#### Packaging Equipment & Testing Equipment

**Filling Systems:** grease/lubricant filling machines, metal/plastic containers, etc.

**Testing & Analysis:** lubricant performance testers, Composition & contamination analyzers, Online monitoring & smart systems, etc.

**Supporting Technologies:** lubrication systems, auxiliary equipment, eco-friendly solutions, etc.

## 2026 Show Highlights: Overseas Brands Pavilion + Lubricants & Fluids Pavilion

### Overseas Brands Pavilion

Inter Lubric China 2026 is launching a dedicated "Overseas Brands Pavilion" to provide these brands a gateway into the Chinese market, amid rapid global integration of the industry.

This exclusive pavilion will bring together leading industry brands from Europe, America, Asia, and other regions, showcasing their innovative products, advanced technologies, and differentiated solutions.

Through a combination of brand presentations, technical forums, and business matchmaking events, the pavilion is designed to facilitate targeted engagement between overseas exhibitors and Chinese buyers, while also offering industry professionals in China valuable insights into the latest developments and global trends in lubricant technology.

### Finished Lubricants & Fluids Pavilion

The pavilion for the finished products will serve as a high-impact platform for lubricant brands to gain concentrated exposure, showcasing a full range of end-use products including industrial lubricants, automotive engine oils, greases, and metalworking fluids.

With on-site product demonstrations and themed forums focused on end-use applications, visitors will gain direct insights into cutting-edge products, while engaging in in-depth discussions with exhibitors on customized solutions.

Located adjacent to the raw materials and equipment zone, the pavilion also offers an integrated platform for both technological exchange and commercial collaboration.

#### End-User Focus

Direct access to industrial/automotive/energy buyers. Efficient product sourcing.

#### Brand Visibility

Dedicated lubricant brand showcase. Competitive edge through live demos & case studies

#### Tech Innovation

Latest formulation tech. Industry-academia collaboration

## 2026 Show Highlights: Lubricants & Fluids Application Events

### Lubricants & Fluids Application Events

The Events zone will be launched as a innovative spotlight at the Inter Lubric China 2026. It will directly address key pain points in the supply chain. The events aims to build an in-depth platform connecting lubricant enterprises with end users by focusing on the core application industries, such as auto aftermarket, wind power, high-end manufacturing, marine, bearings, and machine tools, by combining precise matchmaking with industry-themed forums.

#### Breaking Information Barriers

Establish direct channels between lubricant suppliers and industrial end-users to accelerate technology adoption.

#### Driving Demand-led Innovation

Leverage end-user feedback to catalyze lubricant product upgrades, steering the industry toward high-performance and customized solutions.

#### Developing Lubricant Eco-System

Foster collaborative innovation across the supply chain to cultivate new application models and business ecosystems for lubrication technologies.

### Concurrent Events

- 🔥 The 16<sup>th</sup> China International Lubricants, Base Oils & Additives Conference (ILBAC)
- 🔥 Automotive Aftermarket New Ecosystem Development Forum
- 🔥 Distributor Growth Forum: High-Value-Added Lubrication Service Profit Models
- 🔥 Marine & Offshore Equipment Green Lubrication Technology Salon
- 🔥 Construction Machinery Lubrication Technology Innovation & Application Seminar
- 🔥 Friction Optimization & Bearing Lubrication Technology Symposium
- 🔥 Global Rust Preventives Industry & Market Technology Development Conference
- 🔥 Wind Power Lubrication System Cutting-Edge Technologies & Efficient Solutions Forum
- 🔥 Metalworking Fluids & Industrial Cleaning Technology Salon

.....

# Previous Exhibitors (Partial List)

\*A partial listing of previous exhibitors in random order

## Overseas Brands Pavilion

### Shell Scheme(USD)

2,500/9m<sup>2</sup>(minimal 9m<sup>2</sup>)

### Raw Space(USD)

230/m<sup>2</sup>(minimal 18m<sup>2</sup>)

**Raw Space:** Includes: Space Rental, Security, Exhibitor Passes.

Booth Minimum Size: 18m<sup>2</sup>

**Shell Scheme:** Includes: Space Rental, Security, Exhibitor Passes, Stand Construction and Dismantling, 2.5-meter-high Partition Wall, 1 Carpet, 1 Information Tables, 2 Folding Chairs, Fascia Board with Company Name in both Chinese and English, 2 Spotlights, 1 Power Socket, 1 Wastebasket.

Booth Minimum Space: 9m<sup>2</sup>.
